Greenland Particle Boards

Greenland Particle Boards Pvt Ltd. is one of the best and leading manufacturers of wood based Particle Boards in India. We manufacture Particle Boards that are of premium quality and our primary customers are OEMs, manufacturers of furniture and other products of which Particle Boards are an eminent raw material. Incorporated in 2010 with the main objective of setting up an ultra-modern Particle Board manufacturing facility with a capacity of 180 CBM at Perumbavoor, Kerala - The plant was commissioned in the year 2014 and the commercial production started on June 2015. Particleboards are an excellent choice for manufacturing furniture and other products. We deliver products all over India and abroad. We are one of the leading producers of high-quality particle boards. The manufacturing unit has a capacity of laminating 7000+ boards per day and carries an inventory of more than 250 decors.

Particle Board aka chipboard is an engineered wood product that is made from wood-fibre, blended with a synthetic resin pressed in a hot press at a temperature of 180° to 200° C.
